and grow your money. See  
the power of an HSA-qualified  
health plan combined with  
a HealthEquity HSA.

# Save on premiums

When it comes to choosing a healthcare plan, you really have one decision to make: High premium or low premium?

Health Savings Account (HSA)-qualified health plans (sometimes called high-deductible or consumer choice health plans) offer the lowest premiums, enabling you to unlock immediate savings. The difference could be thousands of dollars every year.

# Keep your premium savings

Healthcare premium payments disappear forever. But you can use your HealthEquity HSA to keep that money instead.

Choose a low premium health plan. Then just put the extra money you would have paid toward traditional premiums into your HSA. Voila! Long-term health savings.

Want to go bigger? Don't forget Internal Revenue Service annual contribution limits.

	Individual Plan	Family Plan
2023	\$3,850	\$7,750
2024	\$4,150	\$8,300
Members 55+ can contribute an extra \$1,000		

You have until the annual tax-filing deadline to max your contributions for the previous tax year.

# Maximize tax savings

Every dollar you contribute pre-tax to your HSA reduces your annual taxable income.

Plus, you automatically earn tax-free interest on your money. Anytime eligible medical expenses come up just pay from your HSA and you're good to go. You never pay taxes or penalties when you use HSA dollars for qualified medical expenses.
